Why is it! EDITOR OF THE SENTINEL-Sir: Why is it that so many of the disabled sick and penniless volunteers who are seeking to return to their homes and friends, and who, through force of circum stances, are obliged to stop at Indianapolis, are permitted to wander about the city helpless, neglected and suffering-dependent upon the kindfrom the State? I have noticed instances in which the greatest suffering and want have passed hours; and in no case within the period of several weeks past have I seen promptness exercised in rendering comfortable the poor, but noble, fellows who, because of prostration by sickness and ment and maintain our independence? If it is the duty of the Adjutant General, why does not \$1 25. he as a good military officer see that his men are cared for? Or if it is not the duty of either of these, why does not the Mayor, looking to the protection of the city from epidemic diseases, brought either by typhoid fever and black convalescent, take the matter in hand as a corporation measure? A word to the wise is sufficient.
